附加链接

We need more servers in this country. If you have a server with a static IP, please consider [joining the pool](#)!

To use this specific pool zone, add the following to your ntp.conf file:

```
server 0. cn. pool. ntp. org
server 1. cn. pool. ntp. org
server 2. cn. pool. ntp. org
server 3. cn. pool. ntp. org
```

In most cases it's best to use **pool.ntp.org** to find an NTP server (or 0.pool.ntp.org, 1.pool.ntp.org, etc if you need multiple server names). The system will try finding the closest available servers for you. If you distribute software or equipment that uses NTP, please see our [information for vendors](#).
